

Share The Warmth

Every winter many families-in-need and elderly customers are faced with either paying their energy bills or going without necessities such as food and medicine. This year, the soaring cost of fuel coupled with difficult economic conditions will place many in greater need of assistance than ever before.

By partnering with our customers, employees and shareholders, Duke Energy's Share The Warmth program will help those less fortunate stay warm this winter.

c o m m i t m e n t

As a part of Duke Energy's Customer Care programs, The Share the Warmth fund has raised more than \$1,000,000 each year since 1995. Last year, over \$1,260,000 was contributed thanks to the generosity of our customers and employees, and a \$500,000 gift from the Duke Energy Foundation.

You can make this holiday season happier and warmer for those less fortunate by making a tax-deductible contribution to Share The Warmth using the enclosed envelope. Once again, the Duke Energy Foundation will be making a \$500,000 contribution; and with your financial support, together we can continue to help others during these uncertain economic times.

One hundred percent of the donated funds will be given to local agencies for distribution to families and individuals requiring assistance to pay their winter energy bills.

Thank you for helping our neighbors in their time of need.
